program requires
a separate
application

The baccalaureate
degree in nursing
at Truman State
University is
accredited by the
Commission on
Collegiate Nursing Education
(<http://www.ccneaccreditation.org/>).

Truman has equipped me with the knowledge and aptitude I need in order to best care for my future patients and to impact lives. As a nursing student, I balance my time between classes and clinicals. My coursework has helped me expand my critical thinking skills, in which I have been able to apply to my clinical rotations. As a student in Truman's nursing program, I have had the unique opportunity to travel to University Hospital for my Adult Health clinicals my second semester junior year. The acuity of care was much different, presenting me with new challenges of providing care to a variety of patients. The professors have helped me grow both personally and professionally, instilling in me a greater compassion and love for helping others and encountering each patient with empathy.

– **MADLINE BAYER, Class of 2022**

Academic Interests: Nursing major with Disability Studies and Child Studies minors,
Summer 2021 Intern at SSM Health Cardinal Glennon Children's Hospital

Student Involvement: Nursing Student Association

Hometown: St. Louis, Missouri
